

## AWS Certified Developer - Associate

### Notice of Exam Results

|                           |                                |
|---------------------------|--------------------------------|
| Candidate: Prince Kumawat | Exam Date: Jul 09, 2022        |
| Candidate ID: AWS02809768 | Registration Number: 425793332 |
| Candidate Score: 780      | Pass/Fail: PASS                |

**Congratulations! You have successfully completed the AWS Certified Developer - Associate and you are now AWS Certified.**

The AWS Certified Developer - Associate (DVA-C01) has a scaled score between 100 and 1,000. The scaled score needed to pass the exam is 720.

As a reminder, you are bound by the [Candidate Code of Conduct](#) you accepted when taking your exam, and you are expected to keep the contents of the examination secure. If you have any questions or require assistance, please [contact us](#).

Congratulations again on your achievement and the ability to claim the associated benefits, such as digital badges and discount vouchers for future exams. To take advantage of the benefits associated with your AWS Certified Developer - Associate certification, explore the “Benefits” section of your [AWS Certification Account](#).

Thank you,

AWS Training and Certification

## AWS Certified Developer - Associate

### Breakdown of Exam Results

The information in the table below details the composition of the AWS Certified Developer - Associate and your performance in each of the exam sections. The table includes the classifications of your performance at each **section level**.

This information is designed to provide general feedback concerning your examination performance. The examination is scored using a compensatory scoring model, which means you do not need to “pass” the individual sections. Please keep in mind that each section has a specific weighting on the examination, so some sections have more questions than others. This information is general in nature, highlighting your strengths and weaknesses.

**Meets Competencies:** Performance at this level demonstrates knowledge, skills, and abilities expected of a passing candidate.

**Needs Improvement:** Performance at this level does not demonstrate knowledge, skills, and abilities expected of a passing candidate.

| Section                                  | Score Performance |  |   |
|--|-------------------|--|---|
|  | % of Scored Items | Needs Improvement  | Meets Competencies  |
| Domain 1: Deployment                     | 22%               |  |  |
| Domain 2: Security                       | 26%               |  |   |
| Domain 3: Development with AWS Services  | 30%               |  |   |
| Domain 4: Refactoring                    | 10%               |  |   |
| Domain 5: Monitoring and Troubleshooting | 12%               |  |   |

Disclaimer: AWS Certification exams are designed to make pass/fail decisions based on the total exam score. Section level results are designed to provide direction on areas where a candidate may be weak. Candidates should exercise caution when interpreting the above section level score information as it is less reliable than the total exam score and not intended to guide future test performance.
